At the camp, a ramp tilts to the pond.

4

Mum can rest on the bank. Dad and I test the pond and get wet.

5

Mum yells, "Dust off a raft." It is fun to sit on a raft. I can jump off the raft.

6

At the bank, I sift the sand in the pond and get a frog. It hops off my hand.

7

KNOWLEDGE BUILDER

Perfect Ponds

Ponds are a **habitat** for many plants and animals. Water lilies grow in ponds. Their leaf pads and flowers float on the water. Frogs lay their eggs in ponds. The eggs are clear, so you can watch the frogs **develop** inside. Fish swim in ponds. Some people build ponds as a home for a type of fish called koi.

Frogs lay their eggs in a big clump called **frogspawn**.

Koi look like giant goldfish, but they are actually a kind of **carp**.

Water lily flowers can be white, pink, purple, red, orange or yellow.

Glossary

carp: a large fish that lives in fresh water

develop: to grow and change

frogspawn: a clump of frog eggs

habitat: the place where a plant or animal lives
